ENVIROMENTAL PROTECTION POLICY

Environmental Management is an attitude and a part of the developing plans and strategies of the Hotel Vicko commerce d.o.o. Starigrad Paklenica Company. Quality, safety, health und environment protection are the priorities in the business management of this company.

We are determined in the realisation of sustainable development policy and actions defined by the Environmental protection program. We determine general and single purposes for the environment protection and commit for a lasting improvement and prevention of any environmental pollution

Environmental management system was introduced in Hotel Vicko d.o.o. Starigrad Paklenica and is being maintained on all levels with the goal and obligation to:

- Consistence with legal regulations and other regulations to which the society has obliged to and is related to the aspects of environment.
- Prevention of environmental pollution, endangerment of health and security of people
- Rational and responsible use of row material, reduction of the amount and harmfulness of the produced waste materials, reduction of pollution emissions released into water, soil and air
- Accomplishment in correspondence with agreed rules and assigned responsibility;
- Education and qualification of the employees about environment protection with the purpose of a higher consciousness of every employee.

These guidelines of the environmental management policy were transformed into general environmental management goals out of which every year concrete and single goals are determined and plans associated with environment protection developed.

The board of management approves agreed goals and programs and insures resources for its realization and in this manner assures lasting improvement of the environmental management system at the Hotel Vicko d.o.o. Starigrad Paklenica Company.

FAMILY, TEAMWORK AND A SMILE

ARE THE FORMULA FOR SUCCESS AND SATISFACTION OF OUR GUESTS
